

PRICE LIST

All prices are in US funds - Valid until July 1, 2026

Most Currencies accepted

Listed prices are for Perpetual licenses but Subscription licenses are available

Licenses included ONLINE training and support

Exploration Packages

V11.x- full database platform allowing multiple surveys and large survey sizes

<u>EMIGMA COMPLETE – Airborne, Ground, Borehole,Marine</u>	\$10,000
<i>For Magnetics, FDEM, TDEM, Gravity, IP, Resistivity, MMR, VLF, CSEM/CSAMT</i>	
<i>Includes QCTool Basic plus Gravity & Magnetics tools</i>	
<u>EMIGMA EM for Oil and Gas</u>	\$12,000
<i>EM and Magnetics Applications for airborne, ground, marine and borehole surveys</i>	\$12,000
<i>Including Natural fields and controlled source electromagnetics plus our magnetics tools</i>	
<i>Including Land-Based CSEM</i>	
<i>MT,ZTEM,AFMAG,MTEM,TEM,FEM,IP,Resistivity,CSAMT</i>	
<i>Includes QCTool Basic plus Gravity & Magnetics tools</i>	
<u>EMIGMA for Magnetics – Airborne, Ground, Borehole</u>	\$3,500
<i>2D FFT/DFT, 2D/3D Inversions, Weak and Strong Modelling, 3D Euler solutions</i>	\$3,500
<i>Includes QCTool Basic plus Advanced Magnetics tools</i>	
<u>EMIGMA for GRAVITY – Ground, Borehole applications</u>	\$3,500
<i>2D FFT/DFT, 2D/3D modelling, 2D/3D Inversion, 3D Euler, Gravity Corrections</i>	\$3,500
<i>Includes QCTool Basic plus Advanced Gravity tools</i>	
<u>EMIGMA for Marine Gravity and Magnetics</u>	\$8,000
<i>For processing, modeling and inversion of general marine potential field systems</i>	\$8,000
<u>EMIGMA Ground COMPLETE – Ground Surveys</u>	\$8,000
<i>IP/Resistivity, FDEM, TDEM, Magnetics, Gravity, CSEM/CSAMT</i>	\$8,000
<i>Includes QCTool Basic plus Gravity & Magnetics tools</i>	
<u>EMIGMA for Land-Based CSEM and CSAMT</u>	\$3,500
<i>ground surveys, single or multiple grounded current sources, electric and/or magnetic field measurements</i>	\$3,500
<i>Includes QCTool Basic for raw data processing</i>	
<u>EMIGMA for IP/Resistivity – Ground</u>	\$2,000
<i>PseudoSections, 3D Resistivity Inversion, 1D Inversion, 2D/3D modelling package</i>	\$2,000
<u>EMIGMA for IP/Resistivity Borehole and Crosshole</u>	\$4,000
<i>Surface, surface to borehole and crosshole applications</i>	\$4,000
<i>Forward Modelling, 1D and 3D resistivity inversion for multiple fields and transmitters</i>	
<u>EMIGMA for MMR Surface and surface to borehole</u>	\$2,000
<i>Basic plus 3D modeling</i>	\$2,000
<i>Also available as add-on to EMIGMA for IP/Resistivity</i>	

PRICE LIST

All prices are in US \$ - Valid until July1, 2026

<u>EMIGMA for TDEM – Ground, Borehole, Airborne</u>	\$5,500
<u>EMIGMA for TDEM – Ground, Borehole</u>	\$3,500
<i>Basic, 3D Modelling, 3D Plate Inversion, Extensive 1D inversion capabilities including offset Tx-Rx configurations</i>	
<u>EMIGMA for FDEM – Ground</u>	\$2,500
<i>Basic, 1D inversion, 3D modeling, 3D Plate Inversion</i>	
<u>EMIGMA for FDEM – ground, borehole and airborne</u>	\$4,000
<i>Basic, with Pseudo-Depth imaging, 1D inversion, 3D modeling, 3D Plate Inversion</i>	

Academic Packages

Please contact us for academic prices

QCTool V6.0

QCTool V6.0 BASIC

*Includes 1 year of email support and upgrades
Quality Control, Processing, extensive Filtering apps, very large survey sizes
Data station linked Spreadsheet, Plotter, Grids, Mapping
comprehensive GNSS tools And more*

Add-on features
Gravity corrections, magnetic corrections, FFT/DFT tools

Aeromagnetic Compensation for drones, UAV, marine, helicopter and fixed wing

Basic Price - \$250 USD/license for more details refer to www.qctool.ca

*All above prices are in USD
Training is available on request.
Please request a quotation.*
