PRICE LIST

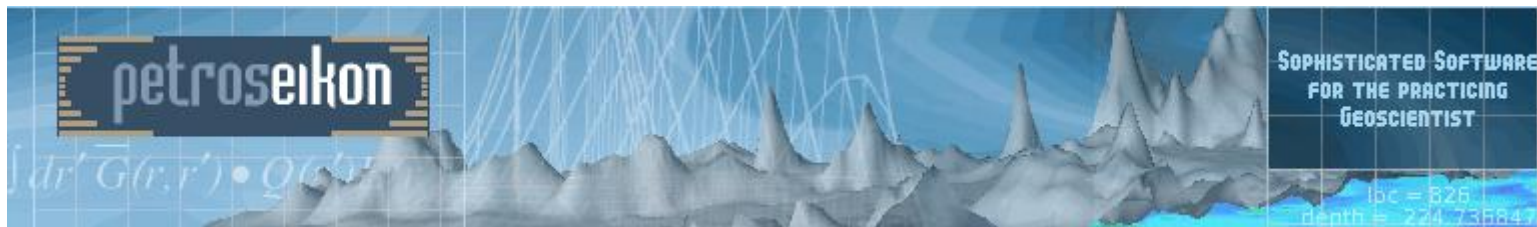

All prices are in US funds - Valid until January 1, 2018

Premium Exploration Packages

V9- Premium Series (full database platform for multiple surveys, unlimited survey size)

EMIGMA Premium EM for Oil and Gas <i>EM and Magnetics Applications for airborne, ground, marine and borehole surveys</i> <i>Natural fields and controlled source electromagnetics plus our magnetics tools</i> <i>Including Land-Based CSEM, MT, CSAMT, ZTEM, AFMAG, MTEM, TEM, FEM, IP, Resistivity, VLF</i>	\$12,000
EMIGMA for GRAVITY – Airborne, Ground, Borehole applications <i>Basic, FFT, 2D/3D modelling, 3D Inversion, Euler, Gravity Corrections</i>	\$3,500
EMIGMA for IP/RESISTIVITY - Ground, Borehole, Xhole applications <i>Basic, PseudoSections, 3D Inversion, 1D Inversion, 2D/3D modeling</i>	\$3,500
EMIGMA for TEM - Ground & Borehole <i>Basic, 3D Modelling, 1D Inversion including inloop and out-of-loop configurations</i>	\$3,000
EMIGMA for Magnetics – Airborne, Ground, Borehole <i>Basic, 2D FFT, 3D Inversions, Modelling, Euler solutions</i>	\$3,000
EMIGMA for MT/AMT - Ground applications <i>Basic, Modelling including 2D/3D models, 1D Inversion, 3D Impedance and Tipper Inversions , stacked 1D Inversion sections and Tensor Decomposition package</i> ----- with Ground TEM or Resistivity	\$5,000
EMIGMA for Land-Based CSEM and CSAMT <i>- single or multiple grounded 3D current sources</i> <i>1D/2D/3D Forward Modelling, 1D and 3D inversion for multiple fields and transmitters suitable for marine CSEM modeling</i>	\$6,000
EMIGMA for Potential Fields – Airborne, Ground, Borehole <i>Combined gravity and magnetics package</i>	\$5,000
EMIGMA for Airborne TEM <i>Basic, with 3D Modelling, 1D inversion including offset Tx-Rx configurations. Includes airborne and ground applications for FEM and TEM</i>	\$6,000
EMIGMA for FEM <i>Basic, with Pseudo-Depth imaging, 1D inversion, 3D modeling. Includes airborne and ground applications for FEM, ground/airborne magnetics including 3D Inversion</i>	\$3,500
EMIGMA for Ground and Borehole applications <i>for Magnetics, FEM, TEM, Gravity, IP, Resistivity, MMR</i>	\$7,500
EMIGMA Complete – Airborne, Ground, Borehole <i>for Magnetics, FEM, TEM, Gravity, IP, Resistivity, VLF/VLF-R, MMR</i>	\$9,000

<p><i>All above prices are in USD unless stated otherwise, and do not include any taxes, bank transfer charges, delivery costs, custom duties.</i></p> <p><i>Training is available on request.</i></p> <p><i>Please request a quotation.</i></p>	<p>Represented by:</p>

PRICE LIST

All prices are in US \$ - Valid until January 1, 2018

<p>Marine Electromagnetics Add-On <i>For CSEM, marine MT, MTEM and for processing, modeling and inversion of general marine EM system configurations</i> <i>Available as add-on to EMIGMA Premium Complete or EMIGMA for Airborne FEM+TEM</i> <i>This add-on is included in the EM for Oil and Gas license</i></p>	<p>\$3,000</p>
<p>Airborne and Ground EM for Natural Fields Add-On <i>For natural field applications such as MT/AMT, ZTEM and AFMAG and capacitive electric field measurements</i> <i>Available as add-on to EMIGMA Premium Complete or EMIGMA for Airborne FEM+TEM</i> <i>This add-on is included in the EM for Oil and Gas license</i></p>	<p>\$4,000</p>
<p>EMIGMA for MMR Basic 3D modeling. <i>Also available as add-on to EMIGMA for Ground and Borehole Applications, EMIGMA Premium for IP/Resistivity or EMIGMA Premium Complete</i></p>	<p>\$1,500</p>
<p>EMIGMA for Marine Gravity and Magnetics <i>For processing, modeling and inversion of general marine potential field system configurations</i></p>	<p>\$7,500</p>

Academic Packages

Some Academic Packages include QCTool

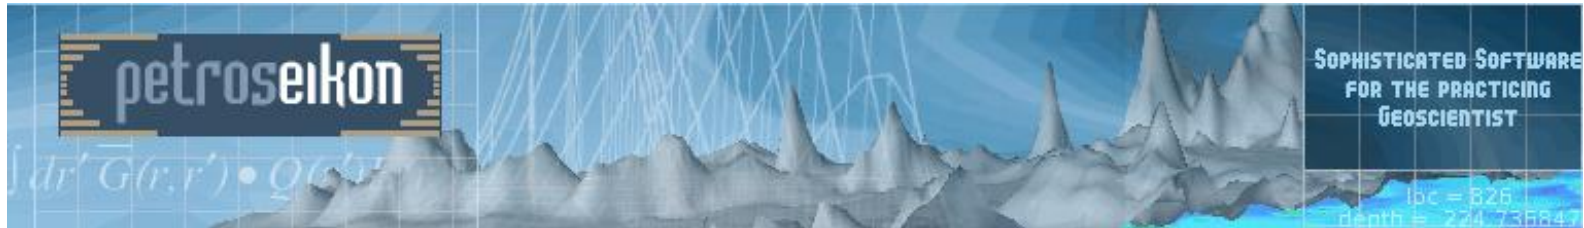

<p>EMIGMA for Academics – Ground Only <i>FEM, TEM, Magnetics, Gravity and Resistivity, V9 Professional</i></p>	<p>\$2,500</p>
<p>EMIGMA Complete Premium Academic – Ground and Airborne <i>Magnetics, Gravity, FEM, TEM, IP, Resistivity, MT, Land-Based CSEM, CSAMT V9 Premium</i></p>	<p>\$5,000</p>
<p>EMIGMA Premium for Potential Fields – Ground, Borehole and Airborne <i>Magnetics + Gravity, V9 Premium</i></p>	<p>\$3,000</p>
<p>GeoTutor V - Educational License V6.x Basic – without Xhole <i>Magnetics, Gravity, FEM, TDEM, IP, Resistivity, MT, CSAMT</i></p>	<p>\$500</p>

All above prices are in USD unless stated otherwise, and do not include any taxes, bank transfer charges, delivery costs, custom duties.

Training is available on request.

Please request a quotation.

PRICE LIST

All prices are in US \$ - Valid until January 1, 2018.

Professional Licenses for Ground Only Environmental and Geotechnical Packages

V9 Ground Applications- Professional Series – database framework, unlimited surveys per database with a maximum of 50,000 data points per survey.

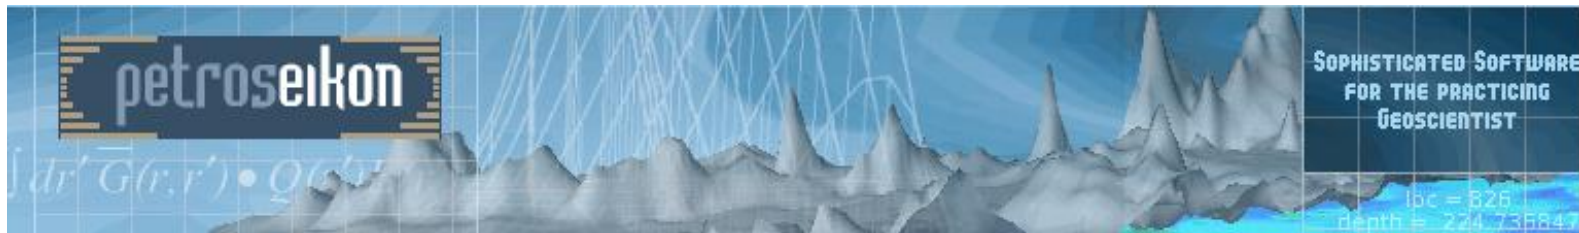

EMIGMA for Ground – VLF/VLF-R, V9 Professional	\$1,000
EMIGMA for Ground - Magnetics , V9 Professional	\$2,000
EMIGMA for Ground – Resistivity, IP , V9 Professional	\$2,000
EMIGMA for Ground – Potential Fields - Ground surveys only Magnetics + Gravity package, V9 Professional	\$4,000
EMIGMA for Ground – TEM – Ground surveys only	\$2,500
EMIGMA for Ground Complete IP/Resistivity, FEM, TEM, Magnetics, Gravity V9 Professional	\$6,000

GeoTutor V for Ground, Airborne, Borehole Modeling (maximum 4,000 data points per survey)

GeoTutor V License – ground, airborne, borehole Magnetics, Gravity, FEM, TEM, Resistivity, IP, MT and CSAMT , V6.x	\$1,000

PRICE LIST

Valid until January 1, 2018.

QCTool V3.0.9

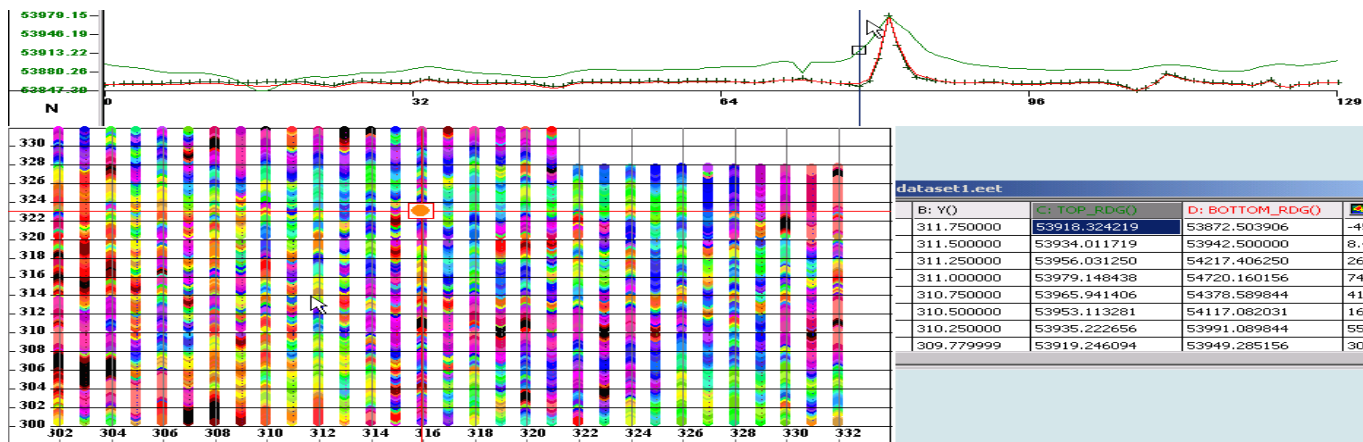

QCTool V3.0.9 Standard

Includes 1 year of email support and upgrades

Data Quality Control, unlimited data points, greater than 500 channels, data linked spreadsheet, plotter, gridding, contouring, filters, GPS projections, gravity corrections, magnetic corrections including IGRF, derivative calculations

Aeromagnetic Compensation add-on available

Basic Price - \$250 USD/license for more details refer to www.qc-tool.com

All above prices are in USD unless stated otherwise, and do not include any taxes, bank transfer charges, delivery costs, custom duties.

Training is available on request.

Please request a quotation.
